

THE UNIVERSITY OF THE SOUTH PACIFIC SCHOOL OF DISTANCE EDUCATION BACHELOR OF EDUCATION TEACHING MAJOR EDUCATIONAL PSYCHOLOGY ASSIGNMENT

QUESTION 1: The following are some of the key concepts in educational psychology. Explain each concept and give an example of how it might be applied in a classroom setting.

1.1. Learning styles: This refers to the different ways in which individuals learn. For example, some students are visual learners, while others are auditory learners. An example of how this might be applied in a classroom is by using a variety of teaching methods to cater to different learning styles.

1.2. Motivation: This refers to the internal drive that causes an individual to act. There are two main types of motivation: intrinsic and extrinsic. An example of how this might be applied in a classroom is by using a variety of rewards and incentives to motivate students.

1.3. Memory: This refers to the ability to store and retrieve information. There are three main types of memory: sensory, short-term, and long-term. An example of how this might be applied in a classroom is by using a variety of techniques to help students remember information, such as repetition and chunking.

1.4. Intelligence: This refers to the ability to solve problems and use knowledge to adapt to new situations. There are two main types of intelligence: fluid and crystalline. An example of how this might be applied in a classroom is by using a variety of activities to challenge students and develop their problem-solving skills.

1.5. Social learning theory: This refers to the idea that individuals learn from others through observation and imitation. An example of how this might be applied in a classroom is by using group work and role-playing to help students learn from each other.
