

# ANALYSIS OF THE ECONOMIC AND SOCIAL SITUATION IN THE COUNTRY

## 1. INTRODUCTION

### 1.1. GENERAL CHARACTERISTICS

### 1.2. ECONOMIC DEVELOPMENT

### 1.3. SOCIAL SITUATION

The following analysis is based on the data of the National Institute of Statistics and the Ministry of Economic Development for the year 2023. The main objective is to identify the main trends in the country's economy and society.

The economic growth rate in the country was 4.5% in 2023, which is lower than the average of the region. This is due to the impact of the global economic crisis and the pandemic. The main sectors of the economy are agriculture, industry, and services. The unemployment rate is 12%, which is higher than the average of the region. The inflation rate is 3.5%, which is lower than the target of 4%. The government is implementing a series of measures to stimulate economic growth and reduce unemployment. These include increasing public investment, supporting small and medium enterprises, and improving the business environment. The social situation in the country is also facing challenges. The poverty rate is 15%, which is higher than the average of the region. The government is implementing social welfare programs to support the most vulnerable groups of the population. These include cash transfers, food assistance, and health services. The government also aims to improve the quality of education and healthcare. In conclusion, the country is facing a complex economic and social situation. The government needs to continue implementing reforms and measures to promote economic growth and social progress.
