

INTERNATIONAL CONFERENCE ON ECONOMIC RECOVERY AND GROWTH

The International Conference on Economic Recovery and Growth, organized by the International Monetary Fund (IMF), is a major forum for discussing the challenges of economic recovery and growth in the wake of the global financial crisis. The conference provides a platform for policymakers, economists, and scholars to share their views and experiences, and to identify effective strategies for promoting sustainable economic growth and employment.

The conference will focus on the following key areas: (i) the impact of the global financial crisis on the world economy; (ii) the challenges of economic recovery and growth in emerging and developing economies; (iii) the role of fiscal and monetary policy in promoting economic recovery and growth; (iv) the importance of structural reforms and investment in infrastructure and human capital; (v) the role of international trade and investment in promoting economic recovery and growth; and (vi) the need for international cooperation and coordination in addressing the challenges of economic recovery and growth.

The conference will be held in a major international city, and will attract a large number of participants from around the world.
