

THE UNIVERSITY OF THE SOUTH PACIFIC SCHOOL OF DISTANCE EDUCATION BACHELOR OF SCIENCE (HONOURS) IN COMPUTER SCIENCE PROGRAMME HANDBOOK

This handbook provides information for students enrolled in the Bachelor of Science (Honours) in Computer Science programme. It outlines the programme structure, entry requirements, and the various components of the programme. The programme is designed to provide students with a strong foundation in computer science and related fields, preparing them for careers in the industry or for further study. The handbook is intended to be a comprehensive guide for students throughout their journey in the programme.

The programme is a four-year undergraduate programme. It is designed to provide students with a strong foundation in computer science and related fields, preparing them for careers in the industry or for further study. The programme is structured to allow students to complete their degree in four years, with a final honours year. The handbook provides detailed information on the programme structure, including the list of courses and the order in which they should be taken.

Students are required to complete a minimum of 120 credit points to graduate with a Bachelor of Science (Honours) in Computer Science. The programme is divided into four years of study. The first three years are the same for all students, while the fourth year is the honours year. The handbook provides a detailed breakdown of the credit requirements for each year and the specific courses that students must take. It also provides information on the various components of the programme, including the final honours project.
