

INTERNATIONAL CONFERENCE ON ECONOMICS

CONFERENCE: The International Conference on Economics is a leading international forum for economists and policy-makers to discuss the latest research and developments in the field. The conference provides a unique opportunity for scholars to present their work and engage in constructive dialogue with their peers. The topics covered range from macroeconomics to microeconomics, and from theory to policy. The conference is held annually in a different location, and attracts participants from all over the world.

The conference is organized by the International Economic Association (IEA), which is a non-profit organization dedicated to promoting research and discussion in economics. The IEA is a member of the International Council for Economic Research (ICER), which is a global network of research institutes and centers. The conference is held in conjunction with the ICER meeting, which is a major event in the international economics calendar.

The conference is held in a different location each year, and attracts participants from all over the world. The topics covered range from macroeconomics to microeconomics, and from theory to policy. The conference is held in conjunction with the ICER meeting, which is a major event in the international economics calendar.
